DJEFFERSON SAINTILUS

Penetration Tester | Cybersecurity Enthusiast | Content Creator

📞 8295040436   @ kylejeffleo@gmail.com   🔗 djefferson-saintilus.github.io   📍 SDE, Domincan Republic

SUMMARY

Experienced penetration tester with a commitment to continuous learning and skill enhancement. Acknowledged for exceptional performance in CTF events such as picoCTF, HackTheBox, and TryHackMe. Skilled content creator behind the "Hackbookin" blog and former YouTube channel "Terlinux." Successfully managed and nurtured a thriving French-speaking hacking and security community on Telegram. Authored a widely acclaimed French eBook about Termux. Currently pursuing a computer science degree with a specialization in Python and PHP programming. A collaborative team player fluent in French, Haitian Creole, Spanish, and English.

PROFESSIONAL EXPERIENCE

Web Penetration Tester

KWENPAM   📅 03/2019 - 03/2022   📍 Gonaives, HAITI

🔗 kwenpam.com

an E-commerce platform, selling products online

- Conduct thorough vulnerability assessments and penetration tests on client web applications to identify security weaknesses and potential exploits.
- Utilize a variety of tools and techniques to assess the security posture of web applications, including automated scanners, manual testing, and code review.

Web Application Security Analyst

MaketPAMHT   📅 09/2021 - 09/2022   📍 Port-au-Prince, HAITI

🔗 maketpamht.com

an E-commerce platform

- Conducted comprehensive security assessments on various client web applications, identifying critical vulnerabilities such as SQL injection, cross-site scripting (XSS), and insecure authentication mechanisms.
- Performed manual code reviews to identify security flaws and potential backdoors in web application source code.

EDUCATION

Jr Penetration Tester Learning Path

TryHackMe   📅 05/2023   📍 HAITI

Offensive Penetration Testing

Cybrary   📅 12/2020   📍 HAITI

PROJECTS

PASM: Password Manager Security Analyzer!

📅 06/2023   📍 Dominican Republic

a Python-based Password Manager Security Analyzer to help you manage and safeguard your passwords effectively.

- The tool encourages users to generate strong and unique passwords for each account, minimizing the risk of unauthorized access.

ACHIEVEMENTS

Programming Mastery

Specialized in Python and PHP programming languages, demonstrated by the creation of diverse projects including port scanning tools and web vulnerability assessments.

Content Creation

Established the "Hackbookin" blog and previously operated a successful YouTube channel under the username "Terlinux," delivering educational content on security, hacking, and programming.

Founded Secure Society

in 2019, a company that provide security solutions like security awareness, vulnerability assesment, and penetration testing.

SKILLS

Programming Languages

Python   SQL   PHP   C   Bash

Tools
